Exclusive: Fired ICU Nurse Speaks Out on COVID Protocols, Vaccine Injuries

In exclusive interviews with CHD.TV and The Defender, California intensive care unit nurse Gail Macrae shared her story of pushing back against hospital COVID-19 protocols that she said violated medical ethics and resulted in increased harm to patients.

Miss a day, miss a lot. Subscribe to The Defender's Top News of the Day. It's free.

In exclusive interviews with CHD.TV's 'Vax-Unvax' Bus and The Defender, California intensive care unit nurse Gail Macrae shared her story of pushing back against hospital COVID-19 protocols that she said violated medical ethics and resulted in increased harm to patients.

Macrae worked at the Kaiser Permanente Hospital in Santa Rosa from 2015 until 2021, when she was fired for not complying with the staff vaccine mandate.

After the COVID-19 vaccine rollout, Macrae witnessed a dramatic spike in hospitalizations with side effects she had never seen before. Meanwhile, proven and recommended treatments were banned and record-keeping systems were manipulated to obfuscate vaccine-related injuries and breakthrough infection cases, she said.

Hospital staff faced threats for reporting adverse events and retaliation for objecting to protocols isolating patients and denying families access and input over their treatments.

In his new book, "What the Nurses Saw: An Investigation into Systemic Medical Murders That Took Place in Hospitals During the COVID Panic and the Nurses Who Fought Back," Ken McCarthy details similar events.

'Felt like I was violating my oath'

According to Macrae, in the first months of the pandemic hospitals were nearly empty as elective procedures halted — a scene that contrasted with media claims of overwhelmed capacity.

Even during the 2020-2021 winter surge of hospitalizations due to normal respiratory issues, she said "not once" were hospitals overwhelmed — an observation she corroborated with colleagues across the state.

"The public was being lied to," she said. "So that really opened my eyes to the fact that there were things going on that shouldn't have been going on."

Macrae reported the implementation of strict isolation protocols for COVID-19 patients that prohibited visitations from patient families and advocates. She claimed these restrictive policies facilitated unchecked "fear-mongering from the media," while removing a support system that would have provided a buffer against administrative coercion.

"The Wuhan Cover-Up" by Robert F. Kennedy Jr.
ORDER NOW

Despite COVID-19 being "the most inflammatory disease process that humanity has ever seen," experienced hospital staff were blocked from administering steroids — "the best treatment for an inflammatory process," Macrae said.

"So for the government and the CDC [Centers for Disease Control and Prevention] and these three-letter organizations to tell practitioners that they could not administer steroids … was absolutely criminal," she said.

California was not the only state to ban steroids. McCarthy, in a recent interview with AMP News, said he found it "just mind-boggling" when nurses told him standard anti-inflammatories like steroids were banned under rigid protocols in hospitals across the U.S.

Meanwhile, remdesivir, already found ineffective as an Ebola therapeutic, was administered under rigid protocols although evidence indicated it "causes more harm than good," Macrae said, adding that antivirals, in general, do not work "more than two days post-symptom onset."

Macrae suggested profit motives were to blame, noting "each one of those doses was over $3,000."

With all of these new restrictive policies and protocols, Macrae said, "Every day I felt like I was violating my oath as a practitioner."

After vaccine rollout, surge in hospitalizations, 'code blue' alerts

Once COVID-19 vaccines were introduced in early 2021, Macrae reported an immediate and drastic shift, with a "300% increase in hospitalizations," and hospital staff overwhelmed amid uncharacteristic patient conditions.

Macrae said "code blue" alerts — when somebody stops breathing or their heart stops — which had been happening perhaps once per shift, began happening as many as 10 times per shift.

"They would always call them down to the lower level of the hospital, where we had a vaccination clinic," she said.

Two nurses who administered the shots directly — colleagues she met through a practitioner support group in her community — said they were seeing between 10 and 20 episodes of anaphylactic shock every day. They told Macrae they were threatened with termination if they said anything about it publicly.

One day near the end of June 2021 as she was working a 16-hour shift split between two units, Macrae said she got a report that every single patient in both units — 60 overall — had unusual injuries that were likely the result of the COVID-19 shots.

She described uncommon blood clots, bleeds, heart attacks, strokes and Bell's Palsy increasing in frequency during the early months of the vaccination campaign.

"There were all of these bizarre peripheral vascular clotting disorders," she said, "and literally, I had never even heard of them or seen them before."

She even saw four "rapid onset" Guillain-Barré syndrome cases, compared to only two cases in all of her previous years of experience as an acute care nurse.

Macrae asked two of these patients what they thought caused their condition, and they said they had received the COVID-19 shots "within 24 hours of onset" of their symptoms.

During this time, the hospital and the press maintained that it was the unvaccinated who were filling the hospitals, she said.

The hospital's charting system was also rigged to not show post-vaccination breakthrough infections, Macrae said. "Any patient who was diagnosed with COVID the chart would automatically populate as 'unvaccinated.' If anyone tried to change that manually, the only other option was 'vaccination status unknown.'"

This was a feature of the Epic software used in all Kaiser Permanente hospitals, said Macrae, a limitation corroborated by others.

"I've talked to nurses all over the country who saw the scamming of the charting systems," she said.

RFK Jr. and Brian Hooker's New Book: "Vax-Unvax"
ORDER NOW

'Belittled, gaslighted or undermined'

Macrae said staff at her hospital were deterred from drawing logical conclusions or lodging reports, saying her manager told her, "We cannot report these because we cannot prove that these [shots] are what is the cause."

"I felt like we were being handcuffed, duck-taped across the mouth and threatened with harm," she said.

Macrae said only about 30% of her colleagues saw what she was seeing — or were willing to say so.

McCarthy's interviews with other nurses around the country chronicled similar patterns of reprisal. If nurses submitted injection injury reports or spoke to media, they risked job loss and their professional reputations.

"Any nurse that stood up was not just fired, not just delicensed, but personally attacked," he said. One nurse was even forced to leave her home and change her name after receiving death threats, he said.

McCarthy said their were "organized armies of attack trolls" going after nurses, and that one of the funders of these efforts was the United Nations. "We actually have video of the undersecretary of communications of the U.N. bragging about this group called Team Halo," he said.

In August 2021, Macrae said the pressure on hospital staff to take the vaccine intensified. She showed her employer her bloodwork proving she had natural immunity, but to no avail.

In the months leading up to that, she said those who refused the vaccines — whether staff or patients — were often "belittled, gaslighted or undermined" in various ways.

In September, Macrae formally served her manager and the hospital's human resources manager with "affidavits of truth and fact," she said, consisting of notarized statements and two blood tests proving her natural immunity and citing state, federal and international laws concerning her right to reject the "experimental use product."

"I didn't want to file a religious exemption," she said, so she included "over 70 articles showing that natural immunity was as effective or more effective than these experimental use vaccines."

The next day Macrae was put on leave, and within a week she was fired. She estimates at least 25 people from her facility — along with thousands of medical practitioners throughout California — suffered a similar fate.

By the time she left, Macrae estimated more than 90% of the patients hospitalized at her facility were fully vaccinated.

Macrae said the ostracizing hasn't stopped, lamenting that she still gets pushback from people who accuse her of being paid to criticize the medical system or call her a "monster."

"We get so much scrutiny from all of these naysayers who just don't want to see the truth," she said. "I don't know what to tell them. Is it really reasonable to look at people like me and somehow convince yourself that I'm doing this for some ulterior motive?"

Macrae credits her faith and her husband — formally a civil engineer, now a law school student — and her 20-year marriage with giving her the strength she needed to get through the last several years.

'I would not take my family member to a hospital'

Macrae said she is concerned for the future of medicine in this country "because we have criminalized and disciplined all the practitioners" who were willing to "protect our patients and families."

"I would not take a family member to a hospital," she said. "It's a dangerous place."

McCarthy echoed that assessment, stating plainly, "I want to make very clear to everybody: These murders, they are murders,... are going on right now. They have not stopped."

"They are still using these protocols," said McCarthy, who described the COVID-19 treatment as, "Don't give them water. Cut them off from their loved ones. Put them on powerful psychoactive drugs, coerce and bully them into getting intubated and vented."

"Less people are dying because less people are being diagnosed and ending up in the clutches of these hospitals," he said.

McCarthy warned against accepting sedatives. "The minute you take a psychoactive drug in a hospital, you now become somebody they can hold against your will," he said. "Why? Because you're now a danger to yourself and others."

"There is a law that allows them to hold onto you. It's called medical kidnap," he said.

Macrae said the optimist in her "wants to believe that this medical system is going to crumble and we're going to rebuild something based on ethical and integrous human interaction, which I feel has been pretty much removed from these systems."

The road from here

Macrae and several medical professionals, including Dr. Christiane Northrup, founded the organization Stand Firm Now, with the goal of gathering expert witness testimony from medical practitioners on notarized affidavits that will "be accessible to every litigating attorney in the world," she said.

"That's what's been missing in courts," she said, referring to lawsuits — including one filed on her behalf by America's Frontline Doctors — that have been thrown out by "judges who are also practicing from the bench."

The notarized testimonies will allow litigants to "properly reinforce" their cases with the "quality and quantity of evidence required to persuade the judge to open exploration," she said. Without such evidence, judges think, "This is all conspiracy theories and misinformation," she said.

Macrae recently filed a lawsuit as a pro se litigant against seven individuals who worked for Kaiser Permanente, against state and county health officers, and against her union representative, who she alleged failed to represent her when her hospital mandated the experimental drug. The suit was thrown out but is now on appeal at the federal level, according to Macrae.

"I'm very excited about this," she said, noting that filing against individuals instead of corporations "changes the legal jurisdiction."

Macrae said she is contracting with people all over the country to begin collaboration and development of a "new private, parallel healthcare system outside of the legal grasp of the three-letter agencies that are constantly forcing us to commit crimes against the oath that we took."

"We must remove ourselves from the jurisdiction of the corrupt federal government and regulatory organizations that have destroyed the medical system," she said, adding there will be a process for ensuring "ethical and moral compliance" in the new system.

McCarthy talked about the American Frontline Nurses and the Nurse Freedom Network, nonprofits offering advocacy, education and nursing services directly to the public.

These nurses are "protecting people that are in the COVID meat grinder," he said. "They actually intervene and help people. They deal with the hospitals. They deal with the hospital administrators."

"But they also keep you out of the hospital, which should be your very, very, very last resort," he said.

'This Nurse spoke out and Resigned!'

'BREAKING'
'Bombshell exposing the COVID jabs containing codes '
The head nurse at the University Medical Center in Ljubljana, Slovenia resigned and explained in front of the cameras what is in the vaccine vaccines.
She showed people the codes on the bottles where each contains 1, 2 or 3 digits in the code, and then explained the meaning of it all. 1. Saline Jab, 2. mRNA Jab, 3. Cancer Jab.

It is good that nurses are finally speaking out (we have been silenced far too long). However, our mistake was not walking off the job en masse in March 2020 (or at least by April or May) when we knew the government and the media were lying to the public about the origins and severity of the so called "Covid-19". It is not a pandemic if nurses are furloughed or have time for free lunch and TikTok dances. The real pandemic came in 2021 when the experimental biological agents were injected into the majority with no informed consent. They lied, people died, and nurses across the globe will need to live with the guilt of collaborating with masking, swabbing, and, in some cases, administering and taking harmful drugs. May God have mercy on our souls! #NoAmnesty #NeverAgain

This is good, but until the masses become aware of this information the powers that be will continue to promulgate their lies of "safe and effective" and those who are not aware of the criminal behavior will still believe these lies. Without conscience, without morals, without empathy, those who have perpetrated this unconscionable act are lacking all desired human traits. These are the people that are running the show on Earth. God help us.

"Learn The Risks, Big Pharma"
PHARMA: AN INDUSTRY THAT PUTS PROFITS BEFORE PATIENTS?

The pharmaceutical industry is one of the largest moneymakers in the world, with more than a 'trillion dollars' in profits every year. It's an industry that heavily influences our healthcare system, yet it, only profits when people are sick. Many people don't realize that there's no money made off healthy people.
https://learntherisk.org/ph...

Bill H RRT → TheOrneryNurse
a day ago

You think we all should have "walked" when there were other patients to care for? You don't think this happened to all clinical staff? We all should have just left? That is a horrible take.

What happened should never happened, but it was allowed to because we have a terrible sick care system. This wouldn't have happened if we didn't. If it were not for profit. If there wasn't an entity that controls what you and I do.

The answer is not to stop caring for the sick. The answer is to change the system that allows people who care for the sick to actually do their job without the benefit of profiting from that. Everyone else in the entire world knows that but the US.

'I would not take my family member to a hospital'

When Remdesivir was proclaimed to be a PREP Act treatment, i did an internet search on it. It had failed on safety in Ebola testing and the WHO recommended against using it. Instantly, i was aware that the PREP Act protocol was not about saving lives. The subsequent horror stories of patient treatment that i came across, confirmed that to me. I determined that i would not consider going to a hospital if i got a serious case of Covid.

I had the same thoughts about remdisivir and ventilation, the only two "treatments" they would offer Covid patients. Better to take your chances and hope you recover at home.

In 2022 my husband and I got covid...we are not vaxxed. I ordered ivermectin and antibiotics 6 months prior thru online source. My husband did not want them. When we got infected...I took the meds got better, husband show symptoms 1 week later. He ended up in the hospital...due to low oxygen levels. They told me they might need to give remidisver and perhaps intubate. I told them under NO CIRCUMSTANCES WERE THEY TO GIVE HIM REMIDISVER NOR INTUBATE. Less than 24 hours later I took him home, demanded they give him prescription for oxygen tank. That day made appointment with my pulmonolgist...got him on steroids, antibiotics and ivermectin. 1 week later 90% improved.

I had a central line placed at Inova Fairfax Hospital prior to Covid but it occluded. I needed it for lifesaving infusions for a blood disorder and called and called, everyone was furloughed. The place was deserted, a "Covid hotspot." There were no "hotspots." That was just another Big Lie. Ultimately they denied me treatment because I'm on oxygen for the blood disorder (a type of porphyria) and couldn't mask without rapid desaturation of oxygen from CO2 overload, something documented by them years before! I tried to get legal help but we gave up and fled to Tennessee where a local hospital accommodated me very easily.

The Company that plans to 'distribute Remdesivir', 'UNITAID', a therapy for Covid#19 'Gates, Soro's, Fauci, Obama, and Clintons, have a Financial Interest'? One billionaire investor behind UNITAID is 'George Soros' himself . But why stop there? UNITAID is also financed by the 'Bill and Melinda Gates Foundation' and also involves a partnership with the 'Clinton Health Access Initiative' (CHAI). And interestingly enough both UNITAID and Gilead Biosciences 'supported' Hillary Clinton for president in 2016 .

"RFK Jr. Wins Case Against Government For Vaccine Safety Violations"

RFK Jr Wins Case Against Government for Vaccine Safety Violations – Robert F Kennedy Jr. teamed up with Del Bigtree of the Informed Consent Action Network to take on the Department of Health and Human Services for vaccine safety violations and they have won. Their lawsuit has brought forth evidence that vaccine safety has been neglected for over 30 years, and as we know it is nothing but a sham, showing that the government agencies we are to trust are not doing their jobs to ensure and improve the safety of immunizations.

Thank you Mark Hampson for telling it how it is! Doctors who think the covid vaccine is the only one to worry about have let us down. Many books have been written on the subject of vaccines and their problems and I have about fifty of them but most people put vaccines on a pedestal. Hard to change that thinking if doctors can't! There must be hundreds of books out there trying to get the truth out but evil money puts a spanner in the works! Thank you again for trying to open eyes!

I've been a clinical pharmacist for 5 decades. During this time, I worked as Director of QC/QA for Big Pharma. I possess a comprehensive understanding of FDA's Good Manufacturing Practices (GMPs). The FDA violated its own rules by making the COVID-19 vaccines available to the general public with no long-term testing. Testing which typically takes 5 to 7 years. Now you're seeing the deadly result of those actions.

The best part about this story, is that the journalists, lawyers, judges, and politicians that rule and side against competent medical professionals will, one day, have to either be treated by or watch a close relative get medical treatment by a practitioner who just follows the protocol regardless of the conditions unique to each patient.
I think the King of Thailand learned first hand the consequence of blind obedience. No one remembers the name of the princess, and that is how the ruling powers want it. But at least the circumstances are documented and help to corroborate this Nurses observations.

Thank you Gail for speaking out. Similar experience in academia where in January of '21, in a researching university, I questioned the safety and efficacy of the covid injection for pregnant women where there was no significant safety studies. Eight weeks later I encouraged discussion in the classroom re: covid injections where students, women of childbearing age, were being coerced. At age 68, with many recent teaching awards, I was censured by my department via HR. After 48 years as a nurse and 15 years as NP and lecturer in a job I loved I resigned. If anyone thinks freedom of speech was present then, think again. The University, with dependence on Federal funds, did not allow vigorous debate. It was a very sad period that I do not think is much improved. Reconsider whether to support your child/grandchild at State institutions.

Prior to the release, 200 internationally known microbiologists died under mysterious circumstances. Microbiologists can't be jerked around by a license suspension the way hospital staff can. Rules regarding pathogens were broken and definitions were redefined to coral the public with CDC edicts. With any give pathogen, only 1/3 will get really sick. The other 2/3 will either not get sick or have a mild infection. Anyone who has been exposed to a pathogen doesn't need a vaccine. The body has already seen the pathogen. Vaccines do not prevent infection. They are supposed to prime the immune system so that the body will eliminate the pathogen quickly. Pathogens always mutate to become less harmful. A pathogen which is highly contagious is hardly lethal. Microbiologist don't name pathogens in code or label variants with Greek letters. The military does. The symptoms of radiation exposure mimics flu.

I never heard that the symptoms of radiation mimics flu. I have been wondering if I'm getting sick from EMF. The other day, I felt like I was coming down with cold/flu or something, canceled an appointment with a dentist I had to wait months to see (and now have to wait two more months), yet I did not get sicker. I start to feel worse at night, and think maybe it's from being exposed to Wifi all day. I turn it off at night. Can you say more on this?

1 0 Reply • Share ›

rambler → Diane Eble
4 hours ago

There have been reports of people getting sick from their cell phones. There have been reports of emissions from 5G towers being recorded on radiation monitors being quite high. When I feel like I'm getting something, I take elderberry with vit C and zinc. Zinc is lost when stressed and loss of zinc keeps the body from absorbing nutrients.

So great to hear from these extremely important witnesses ! Many more are needed to wake up everyone and win in courts.. What.this interview implies is a total fraud of every single study Kaiser Permanente (KP) participated in order to 'proof' covid GENE THERAPIES safety! If no reporting was/is allowed, all covid injections safety studies will be safe of course. Lot of these 'safety studies' use KP centers, the largest and cheapest in terms of care, maybe due to the lowest insurance coverage they require?? Just pointing one study, among quite few:

"Surveillance for Adverse Events After COVID-19 mRNA Vaccination" (https://pubmed.ncbi.nlm.nih.... in which multiple KP facilities contributed to that overall 'safety profile' under the direction of CDC's coworkers, including Tom T Shimabukuro et al. All this needs to be completely questioned, given the testimony of this witness!!! This nurse doesn't know unfortunately how KP participates in a research regarding these covid injection DEATHS and injuries. Since they apply the injections, they monitor the 'incapacitation progress', they even take the body, AFTER the death, for a research, everything will be kept in a BLACK BOX!! This is indeed the most shady criminal clan ever.

In 2022 my husband and I got covid...we are not vaxxed. I ordered ivermectin and antibiotics 6 months prior thru online source. My husband did not want them. When we got infected...I took the meds got better, husband show symptoms 1 week later. He ended up in the hospital...due to low oxygen levels. They told me they might need to give remidisver and perhaps intubate. I told them under NO CIRCUMSTANCES WERE THEY TO GIVE HIM REMIDISVER NOR INTUBATE. Less than 24 hours later I took him home, demanded they give him prescription for oxygen tank. That day made appointment with my pulmonolgist...got him on steroids, antibiotics and ivermectin. 1 week later 90% improved. I will never again trust the medical establishment in regards to saving our lives in an emergency!

Just so you know, another table top exercise was done for a plandemic in 2025. The virus will be an enterovirus (like polio), and will affect children.

Meanwhile, the Lancet proclaims "climate change" to be the biggest health threat. These people are the real existential threat.

Of course. The Lancet turned itself into a tabloid during the "pandemic."

It really would be nice to have a Congress that would investigate this and then ACTUALLY DO SOMETHING! There are people who belong in jail for life, starting with Fauci and Gates.

" ALWAYS REMEMBER"!
Congress and the Supreme Court, Illegals, Post Office (2000 Mules, USPS 2020 Ballot Trucks), Chinese Nationals, were Exempt from Biden Admin Jab Mandate. A Big Red Flag!

Thomas Paine Ep. 31 - This episode taken before the vaccine rollout Corroborates Nurse Gail Macrae and gives more background into the organization that took place during Obama's term.

Top Medical Insider from one of largest health care systems blows the roof off the COVID-19 'Scamdemic.' As Expected: All internal numbers are all rigged -- for profit, greed, politics and social justice. Alarming.

41.12 Covid discussion starts here

42:27 People coming to tell Thomas Paine they have a story to tell after hearing Mikovits and RFK.

43:50 Proved that Hospitals are behind the scheme.

44:10 Whistleblower from deep inside the Health care system.

45:25 This bombshell interview fills in gaps...

Anyone else notice that her neck got red and more red as she spoke? Then it calmed down at the end. Understandable due to the emotions I'm sure that she experienced doing her job and all of the bullshit she saw. Courageous nurse with integrity.

1.) "FOIA'd Emails Reveal Highest-Level Leaders at "White House, HHS, 'CDC', NIAID, AAP'" All Knew COVID Vaccines "Linked to Myocarditis," Yet Publicly 'Covered Up' Findings."

DailyClout received the third, 131-page release of documents from Attorney Edward Berkovich's Freedom of Information Act (FOIA) request to the Centers for Disease Control and Prevention (CDC). The FOIA request stated: "I request emails sent by and received by Dr. Rochelle P. Walensky, Sherri A. Berger, and Kevin Griffis (all of whom are CDC personnel) on dates beginning February 1, 2021 through May 31, 2021, containing the word myocarditis." Astonishingly, the emails reveal that the most senior of leaders, all the way up to the "White House, knew about heart damage linked to mRNA vaccines yet colluded behind the scenes to conceal this side effect from the American people".
https://dailyclout.io/foiad...

2.) "FDA forced to release documents 'admitting they knew' COVID vaccines caused heart inflammation"

It's safe to say this shocking evidence is Congressional hearing and courtroom ready...

But will they do anything. It seems that they think they're still in debate club, not the United States Congress. They love to pontificate and get in their zingers, but they do nothing about anything.
